### GERMAN CARP.

It is reported that the United States a boiled beet. Fish Commission is making arrangegrasses and lilies in carp pouds.

CUBIC INCHES IN A BUSHEL. its height, length and width together in inches will make 2150.42 inches striked or grain measure, for a bushel, balf that number of inches for a half-bushel, quarter that number for a peck. A ha ed bushel has 2818 inches. A box twenty five inches and three-

fifths in length, width twelve inches, depth seven inches, inside measure, will hold a bushel, half the length for a half bushel, quarter the length a peck, strike measure.

PATIENCE AND KINDNESS IN TRAINING HEIFERS. Southern Planter: It is an easy mat-

ter to train a heifer to stand quietly to be milked, but it is easier to train them to jump, kick and run. The way to train them to stand still is to require them always to do so. If there is naught to hinder a wild heifer from running, and her fears prompt her to run, she will ron. If she cannot run, in a short time she loses her fear, and stands from habit; and habit is one of the worst influences in the world for either brute or man to overcome. If you want to transform a wild heifer into a well-behaved, well-trained 'cow, you must be patient and exhibit no temper. Never strike her; she must first of all, get acquainted with you, and learn that you will not burt her. She must learn not to fear you. If in winter it is best to milk in the stable, make as little fuss and as few alarming motions as possible; handle her very gently. Be careful not to pinch her teats. This is the great source of trouble. The cow saturally wishes to get rid of her milk. She stands quietly until some careless milker has given a squeeze that hur's, when she kicks and runs. By allowing such a course a few times the habit will be confirmed. The best way to manage, it you have no stable, is to have a wellfenced yard and teach your heifer to stand for milking in that; or next best, to tie them, using them very quietly. No man or boy is fit to handle animals unless he can control them and control himself. Neither is it right to chastise

SALT FOR SORE THROAT. An exchange thinks that salt and water, a large tablespoonful of salt to half a tumbler of water used as a gargle for sore throat just before meal time, is an excellent remedy for such complaint. A little red pepper should be added if the salt water does not prove successful. Red pepper, honey, or sugar, and sharp vinegar, simmered together, and then tempered with water so as not to be too strong, is a good remedy easily obtained.

# The Value of Grass.

The truth is being demonstrated that grass is not a secondary crop to grain, even in Ohio, though the grain furor seems to have a most extraordinary hold upon our dairy farmers at present. The farmers in the dairy sections held on to the old idea of not disturbing their grass lands until the accepting of ton-to-theacre crops of hay came to be looked upon as inevitable, and when grain began to be grown the results were so surprising that a rush was made in the opposite direction, and the value of grass, both as stock food and a renovator of the soil. was momentarily lest sight of. Now the grass crop is being figured into the profit account. The re seeding of many of these grain fields has resulted in failure because pains were not taken in sowing. With many of our drills the grass seed sower is in front, and as the oats are sown, the grass seed is covered by the drill holes so deep that the grass can never come to the surface. The great value of our grass crops should suggest that they be sown as a special crop, with suitable manuring, such as promotes grass growth. While clover may follow wheat as a secondary seeding, timothy, red top and other of our standard grasses need separate and special sowing and care, and would amply compensate the farmer by more vigorous growth, and decreased liability of failure, for the THE BEST FAMILY MEDICINE extra attention bestowed upon them as a primary crop. - J. G. in Country Gen-

Preservation of Lemon Juice.

One of the greatest comforts to those expecting to be confined is a remedy upon which implicit confidence can be placed—one that will produce a safe and quick delivery—one that will control pain and shorten the duration of labor. Such is "FRE MOTHER'S FRIEND." Try it and see what

A Blessing it is to Suffering Females. This Liniment when used two or three weeks before confinement, produces a wonderful effect, causing a very easy and quick labor, with comparatively little pain, and leaves the mother in a condition to recover quickly -or in other words to have a good gesting up. Under its use, labor will ordinarily occupy much less than the usual time, and the suffering be diminished beyond expression.

The condition for which this remedy is offered is of such a character as to forbid a long array of certificates. Those interested in its use are respectfully referred to the hundreds who have used it. READ THE TESTIMONIALS: I most earnestly entreat every female expecting to be confined to use the "The Mothers's Friesh." Coupled with this entreaty, I will add that during a large obstetrical practice (forty-four years), I have never known it to fail to produce a safe and quick delivery.

H. J. HOLMES, M. D., Atlanta, Ga.

A lady from one of the counties of Middle Georgia, who has been acting as midwife for many years, writes: "I have disposed of all THE MOTHER'S FRIEND you sent me, and I am DELIGHTED WITH IT. In every instance where it has been used its effects have been all that I could ask. I CONSIDER IT A OREAT BLESSING."

CONSIDER IF A OREAT BLESSING."

A greateman writes: "My wife used your Mothers Friend at her fourth confinement, and her testimony is that she passed through it with one-half of the suffering of either of her former confinements, and recovered from it in much less time. She also recommended it to a hady friend who was about to he confined for the first time, and she says: 'I HAVE NEVER SEEN ANY ONE PASS THROCORTHS GREAT TRIAL WITH SO MUCH EASE AND SO LITTLE SUFFERING."

The mannes of all these, and mapy others, can be had by calling at my office.

Having had the forceoing remedy Thomotomity Testrate in atlanta and vicinity. I now offer it to my patrons as possessing superior merits.

I am permitted she to refer to the following well-known clusters of Atlanta: C.S. Newton, Wm. M. Crumier, Jr., W. A. Greeg and D. Bain; all of whom are ready to testify to the merits of the preparation.

Price \$1.50 per bottle.

J. BRADFIELD, Sole Prop'r. By Byron Lem'y, Jackson, Miss."

# Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

entertainment of its readers through numerous stories, sketches, &c. It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new HARPER'S MAGIZINE, HARPER'S YOUNG PEOPLE growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The Vigor cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under zine, in neat cloth binding, will be sent by mail, postpaid, on receipt of \$3.0) per volumwhich conditions diseases of the scalp and hair are impossible. Coth Cases, for binding, 50 cents each-by

As a Dressing for Ladies' Hair The Vigor is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

BRITISH AMERICA ASSURANCE CO. GEORGIA HOME INSURANCE COMPANY. AND GENERAL AGENT FOR THE

New Orleans Insurance Association. INSURES COUNTRY AND CITY PROPERTY AT AS REASONABLE

RATES AS ANY OTHER RESPONSIBLE COMPANIES. GIN HOUSES INSURED.

At the bedside, the physician's first question is, "How are your bowels?" proving that they must in all cases be properly attended to at once, by the use of some medicine that will cleanse the stomach, excite the liver, cause a free flow of bile and carry of these disease-making secretions. Pills, oils and other strong medicines, produce pain, griping, sick stomach, and often cause the loss of time.

Balley's Saline Aperiant is relisered of all these unpleasant effects; it acts mildly upon the bowels, causes a free flow of bile, reliseres constipations, billoutness, sick headache, soid atomach, heartburn, colle, ligestion, etc. It is a white powder, and is as cooling and pleasant as a glass of soda water. Large Bottles 50 conts.

THE SUN. NEW YORK, 1883.

More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been creeks pass a through it; fine cane for win-Newspapers are not to copy this a lvertisc-ment without the express order of Harper A Brothers.
